(Abstract and supplement publications not included)

2C-T-7
– new trends in the cyber and street market of recreational drugs? 675
α2 adrenoceptors
– selective effects of clonidine and temazepam on attention and memory 259
Acetylcholinesterase inhibitors
– successfully switching therapy in probable Lewy body dementia 214
Acute laryngeal dystonia
– antipsychotic drug-induced acute laryngeal dystonia: two case reports and a mini review 307
Acute tryptophan
– or tyrosine depletion test: time for reappraisal 429
Addiction
– the place of partial agonism in psychiatry: recent developments 408
Aggression
– individual differences in responding to intravenous flumazenil administration in adult male parolees 640
Aggression
– lamotrigine treatment of aggression in female borderline-patients: a randomized, double blind, placebo-controlled study 287
Alcohol
– preliminary evidence of the cardiovascular effects of polysubstance misuse in nightclubs 67
– use of lamotrigine to augment clozapine in patients with resistant schizophrenia and comorbid alcohol dependence: a potent anti-craving effect? 301
Alpha-lactalbumin
– memory function in women with premenstral complaints and the effect of serotonergic stimulation by acute administration 375
Antidepressant
– death by tricyclic: the real scandal? 123
Antipsychotic agents
– actions of antipsychotic drugs on β-cell function: contrasting of clozapine and haloperidol 597
– extrapyramidal symptoms and signs in first-episode, antipsychotic exposed and non-exposed patients with schizophrenia or related psychotic illness 277
– fatal poisoning, England and Wales 1993–2002 667
– undiagnosed impaired fasting glucose and diabetes mellitus amongst inpatients 182
Anxiety
– effects of lorazepam on fear-potentiated startle responses in man 249
– effects of peripheral sympathetic blockade with dapiprazole on the fear-inhibited light reflex 139
– evidence-based guidelines for the pharmacological treatment of anxiety disorders: recommendations form the British Association for Psychopharmacology 567
– noradrenergic blockade and numeric working memory in humans 21
Atypical antipsychotics
– metabolic side effects in children: a literature review 533

Benzodiazepines
– the mouse walking assay offers improved sensitivity over the mouse rotarod in determining motor coordination deficits induced 221
Bipolar disorder
– cannabinoids in bipolar affective disorder: a review and discussion of their therapeutic potential 293
– neuroendocrine challenge with a 5-HT_{1D} receptor agonist differentiates between two subtypes of bipolar disorder according to polarity of onset 109
– using guidelines in real clinical situations: clozapine and breast feeding 317

Caffeine
– effects of repeated doses of caffeine on mood and performance of alert and fatigue volunteers 620
Cannabis
– antagonists: a new era of social psychopharmacology 3
– as a risk factor for psychosis: systematic review 187
Carbon dioxide challenge
– results in hypothalamic-pituitary-adrenal activation in healthy volunteers 243
Cerebrovascular accidents
– comparison of incidence rates of and transient ischaemic attacks in observational cohort studies in patients prescribed risperidone, quetiapine or olanzapine in general practice in England including patients with dementia 473
Chronic fatigue syndrome
– chronic treatment with modafinil may not be beneficial in patients 647
– heterogeneity of serum tryptophan concentrations and availability to the brain in patients with the chronic fatigue syndrome 385
Cinnarizine
– has an atypical antipsychotic profile in animal models of psychosis 342
Citalopram
– evidence for a combined genetic effect of the $5HT_{1A}$ receptor and serotonin transporter genes in the clinical outcome of major depressive patients 166
– specific serotonergic reuptake inhibition impairs vigilance performance acutely and after subchronic treatment 12

Clozapine
– a case of clozapine-induced tonic-clonic seizures managed with valproate: implications for clinical care 93
– induced toxic hepatitis with skin rash 107
– induced type-2 diabetes mellitus: possible mechanisms and implications for clinical practice 207
– is clozapine useful for treatment of clozapine-induced sialorrhea 426
– monotherapy for catatonic schizophrenia: should clozapine be the treatment of choice, with catatonia rather than psychosis as the main therapeutic index 432
Cocaine
– heightened locomotor activity in adolescent compared to female rats 443
Cognitive function
– the effects of high-dose and low-dose tryptophan depletion on mood and cognitive functions of remitted depressed patients 267
Conflict of interest 314
Cortisol
– sex differences in cortisol response to reboxetine 46

Depression
– major depressive disorder with psychotic features induced by interferon-_ treatment for hepatitis C in a polydrug abuser 102
– self-reported depressive symptomatology in community samples of polysubstance misusers who report ecstasy use: a meat-analysis 84
– treatment of depression: time to consider folic acid and vitamin B_{12} 59
Diazepam
– suppresses the acquisition but not the expression of 'fear-potentiation' of the acoustic startle response in man 347
Diazinon
– a long term study of the effects on sleep, the electrocorticogram and cognitive behaviour in common marmosets 455
Dopamine
– effect of chronic lithium and withdrawal from chronic lithium on presynaptic function in the rat 229
– lack of behavioural effects after acute tyrosine depletion in healthy volunteers 5
– sulpiride and mnemonic function: effects of a dopamine D2 receptor antagonist on working memory, emotional memory and long term memory in healthy volunteers 29

Ecstasy – see MDMA
Experimental medicine
– in psychiatry 565

Fore*sight* brain science, addiction and drugs project 325

$GABA_A$ receptor
– making sense of subtypes: is a new nomenclature needed? 219
Gamma hydroxy butyrate
– abuse and dependency 195
Ginkgo biloba
– limited cognitive benefits in Stage +2 postmenopausal women after 6 weeks of treatment 173

Hypercarbic gas exposure
– reveals functionally distinct subpopulations of serotonergic neurons in rats 327

Insomnia
– short term treatment with hypnotic drugs: going beyond the evidence 134
– medicinal plants: a review of their pharmacology, efficacy and tolerability 414

Kinaesthesia
– effects of ethanol on kinaesthetic perception 627

Levetiracetam
– in social phobia: a placebo controlled pilot study 551
Lorazepam
– gender differences in reponse in a human drug discrimination study 614

MDMA
– chronic tolerance 71
– effects both error-rate dependent and independent aspects of decision-making in a two-choice prediction task 366
– the P3 in 'ecstasy' polydrug users during response inhibition and execution 504
– transient memory impairment after acute dose of 75 mg 633
Memory
– does the human leukaemia differentiation factor fragment HDLF6 improve memory via brain DNA and protein synthesis 602
Mirtazapine
– treatment of generalized anxiety disorder: a fixed dose, open label study 483
Modafinil
– assessment on attentional processes in a five-choice serial reaction time test in the rat 149

Neuroleptic malignant syndrome
– due to three atypical antipsychotics in a child 422
NICE
– the National Institute of Clinical Excellence – or eccentricity? Reflections on the Z-drugs as hypnotics 125
– NICE review: not nice for patients 129
– a NICE opportunity missed 136

Obsessive compulsive disorder
– augmentation strategy with olanzapine: an Italian long-term open-label study 392
Off-label prescribing
– a survey of the off-label use of mood stabilizers in a large psychiatric hospital 402
Olanzapine
– plus venlafaxine in treatment-resistant depression 434
– successful treatment of refactory schizophrenia with combined olanzapine and quetiapine in a patient with prolactin secreting pituitary microadenoma 97

Panax ginseng
– reduce blood glucose levels and improve cognitive performance during sustained mental activity 357
Panic attack
– characterisation of a 7% CO_2 inhalation paradigm to evoke anxiety symptoms in healthy subjects 494
Pervasive developmental disorders
– systematic review of randomized controlled trials of atypical antipsychotics and selective serotonin reuptake inhibitors for behavioural problems 521
Post-traumatic stress disorder
– effects of phenytoin on memory, cognition and brain structure: a pilot study 159
Pregnancy
– neonatal symptoms following maternal paroxetine treatment:

serotonin toxicity or paroxetine discontinuation syndrome 554
Prepulse inhibition
– sex effects in prepulse inhibition and facilitation of the acoustic startle response: implications for pharmacological and treatment studies 39

Quetiapine
– the efficacy and safety of quetiapine for treatment of geriatric psychosis 661

Repetitive transcranial magnetic stimulation
– occurrence of epileptic paroxysm during treatment 313
Risperidone
– and breast feeding 211
– influence of age and gender on plasma concentrations 395
– oral risperidone with lorazepam versus oral zuclopenthixol with lorazepam in the treatment of acute psychosis in emergency psychiatry: a prospective, comparative, open-label study 51

Schizophrenia
– the striatal dopamine transporter in first-episode, drug-naïve patients: evaluation by the new SPECT-ligand [^{99m}Tc] TRODAT-1 488
Sleep
– the use of sleep measures to compare a new $5HT_{1A}$ agonist with buspirone in humans 609
Spontaneous eye blink rate
– blinking and schizotypal thinking 513
St John's wort
– Reduction of ethanol intake by chronic treatment with *Hypericum perforatum*, alone or combined with naltrexone in rats 448
– neural monoaminergic mediation of the effect on prepulse inhibition of the acoustic startle response in rats 467

Trazodone
– and its active metabolite *m*-chlorophenylpiperazine as partial agonists at 5-HT1A receptors assessed by [35S]GYP_S binding 235
Ziprasidone
– sudden death in a patient with Tourette syndrome during a clinical trial 205
